

Construction Update US 5 Bridge GUILFORD – week of June 12, 2017

Hello,

The week of June 12, the US 5 Guilford Bridge contractor, Renaud Bros., will complete the final grading as well as the installation of chain-link fence and gate at the I-91 Emergency Access ramp. This week project staff met at the ramp site with the Brattleboro postmaster to make final arrangements for setting up post office boxes for Melendy Hill and Broad Brook residents who will be unable to access their postal box on Grist Mill Road when the bridge is closed.

Renaud Bros. will continue forming and placing reinforcing steel for the precast bridge units currently located on the church property. The contractor will continue installing detour signage for the bridge closure at various locations on Route 5, side roads and I-91. Miscellaneous work around the existing bridge will be done in preparation of bridge closure.

Motorists should watch for flaggers who will assist trucks driving in and out of the bridge construction site.

Please drive with care through the construction zone. It is illegal in Vermont to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.

Best regards,

Jill
