

Hello,

The week of June 19, the US 5 Guilford Bridge contractor, Renaud Bros., will continue forming and placing reinforcing steel for the precast bridge units located on the church property. Concrete placement of the bridge units is anticipated the latter part of the week. In preparation for bridge closure period, the contractor will continue installing detour signs at various locations on Route 5, side roads and I-91.

Beginning Monday June 19th and leading up to the July 10th bridge closure, there will be one-way alternating traffic on Rte. 5 during day light hours to facilitate the installation of piles for a bridge abutment and miscellaneous roadway construction.

Motorists should watch for flaggers who will assist trucks driving in and out of the bridge construction site.

Please drive with care through the construction zone. It is illegal in Vermont to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.

Best regards,

Jill
